PROJECTS

Next Great Innovator Hackathon | RBC

September 2016

- We were given a challenge theme:
 - Build an innovative prototype of a mobile, tablet, or web app that RBC could offer to help business owners start, manage, and grow their small businesses.
- Our solution, RBC Athene:
 - ✓ A web app that provided a single environment where business owners could access all the tools and information available from RBC.
 - ✓ The application would combine data analytics and machine learning to create an environment that provided the best support possible for each user.
 - ✓ Used Javascript frameworks and libraries (Node.js, Express.js and jQuery), CSS (Bootstrap) and HTML.
- Finalist team, 3rd in the competition out of 35+ teams.

3 Day Start-up | Entrepreneurship program

May 2012

- Selected to participate in a 3-Days Start-up entrepreneurship program, designed for university students and young IT professionals based on 'learning by doing'.
- Youngest participant ever selected <http://barcelona.3daystartup.org/en/>
- Relevant Accomplishments:
 - ✓ CloudCard: A cloud app developed in three days as part of the program.
 - ✓ As a result of my proven performance in this program I was hired to develop projects for the start-up company "MedTep".
